Career Objective

As a recent high school graduate with a passion for IT and coding, my objective is to build a successful career in the IT industry. I aim to continuously develop my coding proficiency, enhance my understanding of IT systems, and contribute to innovative projects and teams. Through dedication and a growth mindset, I aspire to make meaningful contributions to the field of information technology and advance toward becoming a skilled IT professional with strong programming expertise.

Key Skills

Software Proficiency

- Microsoft Office Suite (Word, Excel, Access, PowerPoint)
- Adobe Photoshop

Programming Languages

- C
- Python
- Java

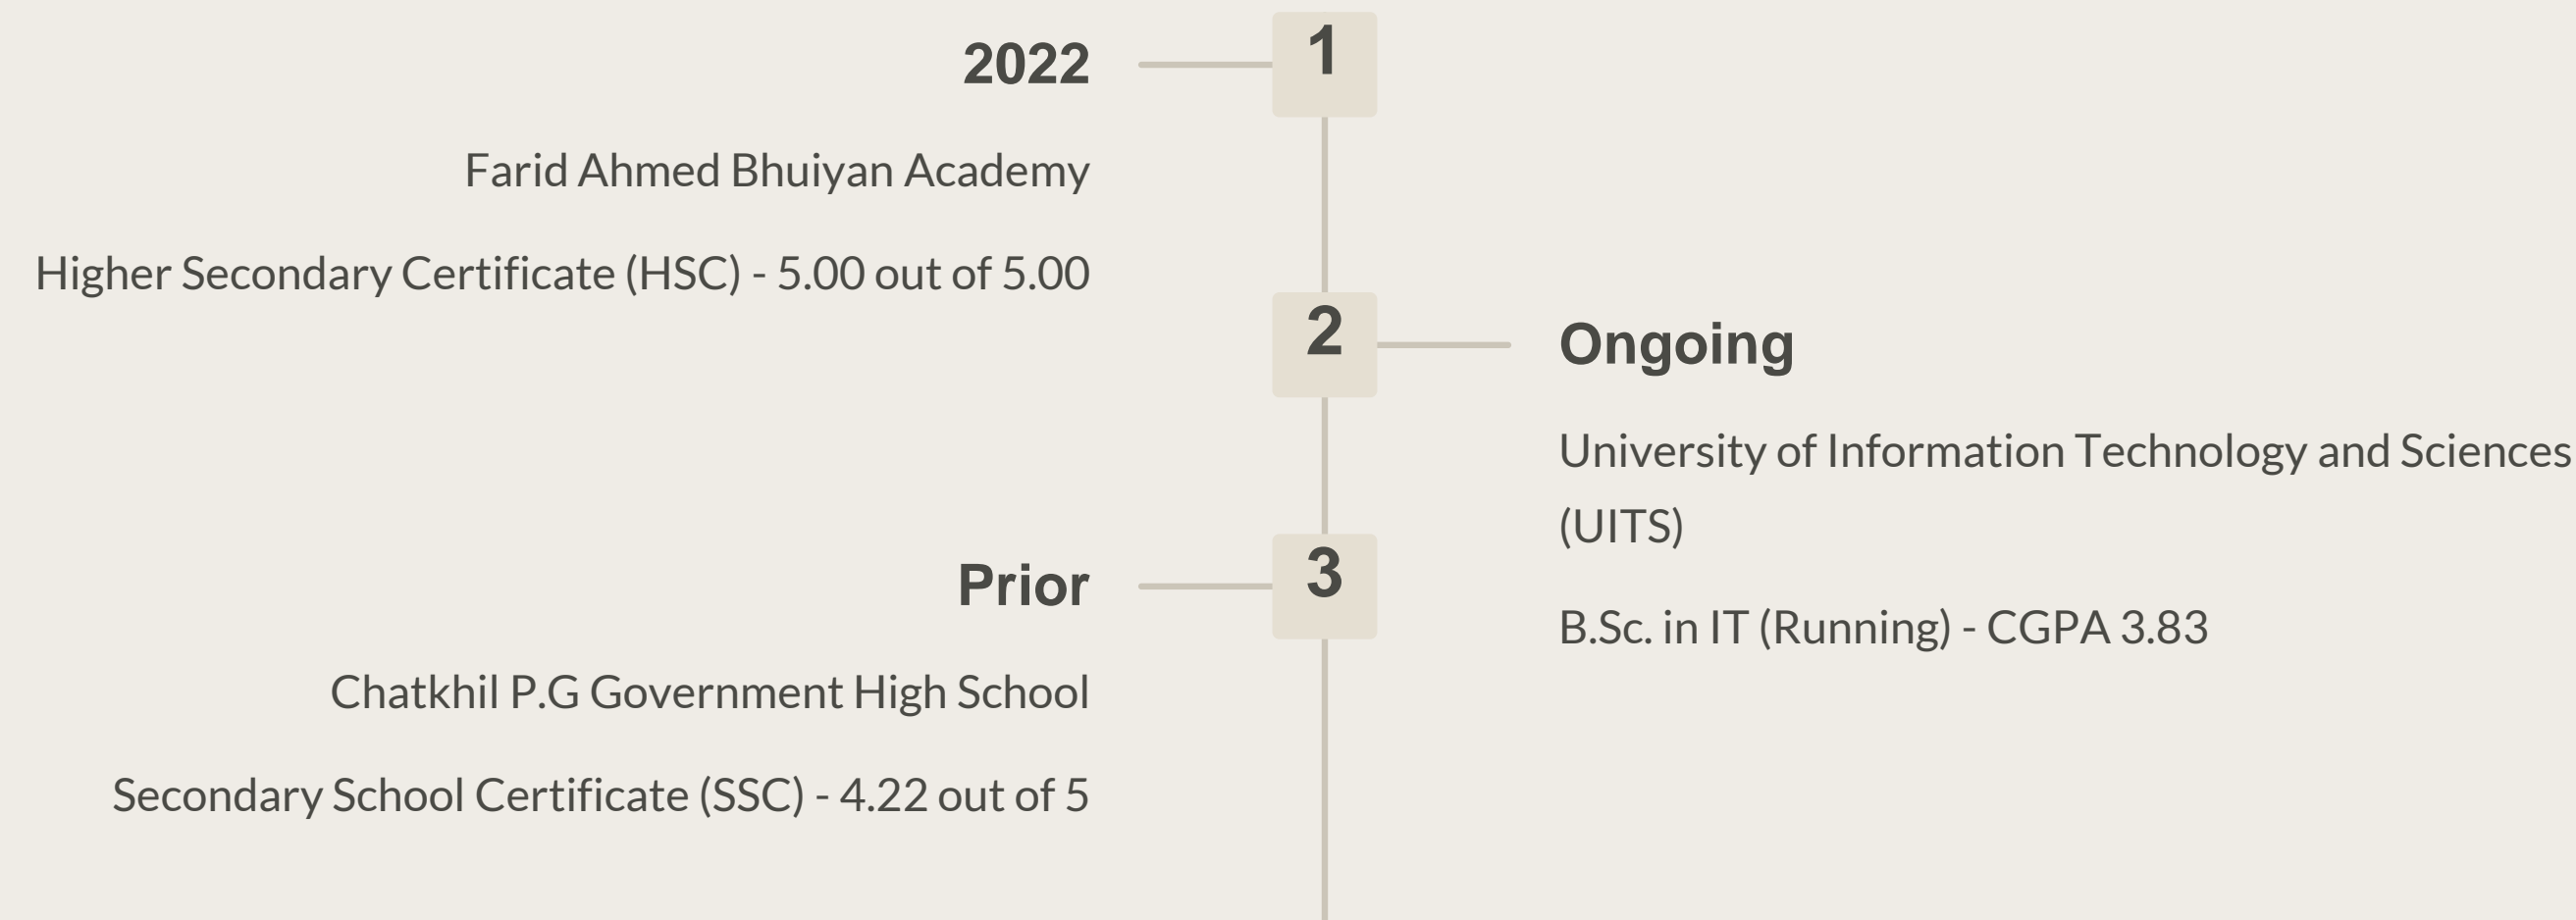

Cyber Threat Research

- Threat Analysis
- Vulnerability Assessment
- Incident Response

Version Control

- Git
- GitHub
- Collaborative Development

Education Journey

Achievements & Awards

MPQ Scholarship Recipient

Awarded for outstanding academic performance and consistent excellence in coursework at UITS.

IELTS Certified

English Proficiency Certificate with a Band Score of 6.5.

Professional Certifications

1

Computer Office Application

Certified in Computer Office Application by BTEB.

2

Cybersecurity Basics

Completed Cybersecurity Basics through Cisco Netacad.

3

Critical Infrastructure Protection

Certified in Critical Infrastructure Protection by OPSWAT Academy.

Ongoing Professional Development

Currently, I am actively pursuing advanced certifications to expand my expertise in critical areas of information technology, enhancing my foundational knowledge with specialized skills.

Google Cybersecurity Certificate

Completing the Google Cybersecurity Certificate on Coursera, covering foundational cybersecurity principles and practices.

CPR,AED and First Aid Certification Course

Actively training for the CPR, AED, and First Aid certification with NHCPS, focusing on emergency response techniques, life-saving procedures, and safety best practices.

Academic Projects

1

Smart Attendance Management System (Prototype)

Role: Team Lead & UI/UX Designer **Description:** Designed and led the development of a prototype system aimed at automating attendance tracking for educational institutions. The solution integrates a user-friendly interface with efficient data management features to improve accuracy, reduce manual effort, and enhance the overall attendance process. As team lead, I coordinated task allocation, ensured project milestones were met, and guided the design direction to align with user needs and usability principles.

2

Library Management System (Raw Java Code)

Role: Developer **Description:** Developed a basic Java-based library management system focusing on core functionalities such as adding, searching, and managing books and member records. The project was implemented using object-oriented programming principles to strengthen my Java skills and improve my understanding of backend logic for data management systems.

Activities & Engagements

01

Deep Dive into Blockchain Workshop

Attended on September 22, 2024, at UITs.

02

Explore Data Analytics Seminar

Attended on October 6, 2024, at UITs.

03

Bangladesh International Tech Expo 2024

Attended on December 9, 2024, at BICC, Agargaon.

04

Programming Contests

Participated in UITs Programming Contest-2025 and Fresher's Programming Contest-2025.

05

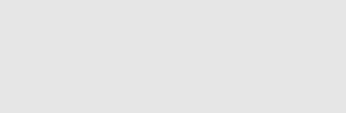

UITs Intra Hackify Fest

Participated in Capture the Flag (4th position) and ICT Olympiad.

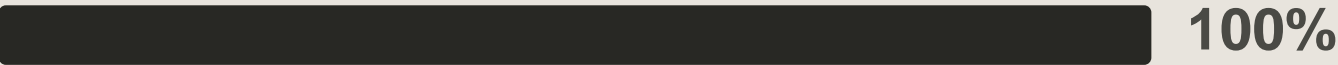

06

University Activation Programme

Volunteered for the University Activation Programme 2025—a collaborative initiative by the ICT Division, Bangladesh Computer Council (BCC), iDEA Project, and the Department of IT at UITs—participating in event facilitation and student engagement efforts

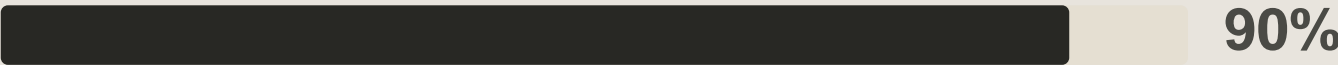

Language Proficiency

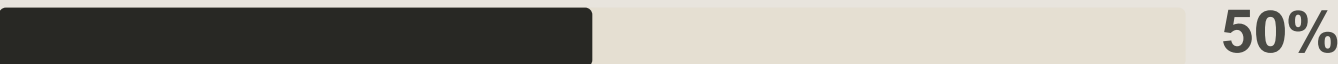

Bangla

Native

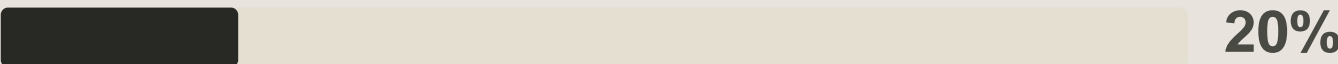

English

Proficient

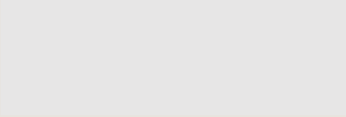

Hindi
